

1. Carol with the Governor's office talked first and wanted the floor to discuss the standing up of the State EOC and all future requests and resources requests need to be channeled through the local operations center and routed to the State EOC.
2. MDEQ has a few IMT members on site and are working towards creating an Incident Management Plan.
3. System switch over report is that is going well.
4. First test of water system will be on Monday
5. Water chemistry is being looked at beyond just PFAS.
6. Discharge water- lots of questions are coming in about how and where it was discharged. MDEQ will address it at the public meeting.
7. Question was raised on establishing a Joint Information Center. The State is waiting on the Emergency declaration which will likely come Monday morning.
8. Water distribution- 5,000 cases delivered yesterday. 5,500 cases on hand, are asking for more water so they don't run out. Request was handled by telling the speaker to go through the emergency process and have the local EOC make the request to the State EOC.
9. Volunteers appear to be set through Sunday to distribute water.
10. Public Meeting is Tuesday July 31, 2018 = 5350 Sprinkle Road, is at Haven Church. 5-6 availability sessions, 6-8pm is town hall meeting
11. Jim Rutherford asked for a plan to be written for water supply to be ready for tomorrow's call.
